RESPONSE TO RESTRICTION REQUIREMENT

Dear Sir:

70. This Response to Restriction Requirement is respectfully submitted in response to the Office Action dated June 15, 2001. It is timely in view of the fact that July 15, 2001 fell on a Sunday.

The Office Action of June 15, 2001 required restriction of the claims under 35 U.S.C. 121 to one of the following groups:

- I. Claims 1-22, drawn to multiple methods effecting hair, classified in class 514, subclass 880.
- II. Claims 23-52, drawn to compositions comprising botanical extracts, classified in class 424, subclass 725.

Applicants respectfully request reconsideration of the foregoing requirement on the basis that including them in the same applications would pose no undue burden upon the Patent Office in searching and prosecuting the application. However, applicants provisionally elect the claims of Group I (claims 1-22) to prosecute in the above-identified patent application in the event that the restriction requirement is made final.

The Office Action of June 15, 2001 further noted that the application contains claims directed to "the following patentably distinct species of the claims invention: Group I consists of two groups: (1) modulating hair growth, hair follicle or hair shaft size; and (2) modulating hair pigmentation." The Office Action required applicants to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicants respectfully request reconsideration of this requirement, however, they provisionally elect the species of sub-group (1), i.e., the species relating to modulating hair growth, hair follicle or hair shaft size, for prosecution in the above-captioned patent application in the event that this requirement is made final. Applicants respectfully submit that claims 1-22 read upon the elected species.

In view of the foregoing discussion, applicants respectfully request consideration of the claims. An early allowance is earnestly solicited.

Respectfully submitted,

Andrea L. Colby
